

KOMALI KADIYALA

Data Science & AI-ML Engineer

• Nizampet, Hyderabad • komalikadiyala17@gmail.com • +91 7396701643 • [Portfolio](#)

SUMMARY

Highly motivated and hardworking Computer Science undergraduate specializing in Artificial Intelligence with hands-on experience in AI, Data Science, and Full-Stack development. Seeking a responsible role in a reputed organization to apply technical skills, problem-solving abilities, and continuous learning in real-world projects.

EXPERIENCE

Full Stack Development - Python Intern [LINK](#)

Data Valley Pvt. Ltd. & APSICHE (Nov 2025-Mar 2026)

Internship focused on full-stack development

- Built AI applications using FastAPI, React, PostgreSQL, and REST APIs.
- Developed scalable backend systems with authentication dashboard integration, and deployment workflows.

AI Driven Data Analytics Intern [LINK](#)

CSC India | Data Valley Pvt. Ltd (May 2025 - Jun 2025)

Internship focused on AI driven data analytics

- Performed data analysis, visualization, and predictive modeling using Python, SQL, Excel, Power BI, and ML techniques. Built Student Dropout, Stock Market HDFM Projects.

Cyber Security Intern [LINK](#)

Supraja Technologies (May 2025 - Aug 2025)

Internship focused on cyber security

- Built Python-based security monitoring system for threat detection and anomaly analysis using heuristic-based monitoring techniques.

CERTIFICATIONS

- IBM Machine Learning for Data Science Project – IBM [LINK](#)
- Data Science Certification – edX [LINK](#)
- Introduction to Artificial Intelligence – Infosys Springboard [LINK](#)
- Introduction to NLP – Infosys Springboard [LINK](#)
- Cyber Security – Cisco [LINK](#)
- Internet of Things – NPTEL [LINK](#)
- Python Foundation – Infosys Springboard
- IDE Bootcamp PhaseII [LINK](#)

SKILLS

- **Programming Languages:** Python, SQL, JavaScript, HTML, CSS
- **Machine Learning & Deep Learning:** Supervised Learning, Predictive Modeling, Neural Networks, Model Evaluation
- **Artificial Intelligence:** Natural Language Processing (NLP), Computer Vision, Deep Learning Applications
- **Data Analytics & Visualization:** Power BI, Microsoft Excel, Data Analysis, Exploratory Data Analysis (EDA)
- **Frameworks & Tools:** Streamlit, FastAPI, TensorFlow, Git, GitHub, PostgreSQL
- **AI/ML Development:** Real-Time Monitoring Systems, Predictive Analytics, AI-Powered Application Development

PROJECTS LINK

SMARTSECUREC3 – AI Surveillance Platform

- AI-powered CCTV surveillance platform using FastAPI, React, YOLOv8, PostgreSQL, and OCR for real-time security analytics.

MedAlertAI – Smart Hospital Monitoring System

- AI-based healthcare surveillance platform for patient monitoring, emergency detection, and medical analytics.

Vineyard Yield Estimation using Deep Learning

- Vineyard yield prediction using YOLOv8, MINN, Faster R-CNN models for agricultural analytics.

Stock Market Forecasting System

- Predictive financial analytics using LSTM, GRU, ARIMA, SVR, and Random Forest models.

Student Dropout Prediction System

- Machine Learning-based predictive analytics model for identifying at-risk students.

Bride Belle – E-Commerce Application

- Android-based e-commerce application for bridal and groom accessories with responsive UI features.

Amazon Reviews Sentiment Analysis

- NLP-based sentiment classification system for Amazon product reviews.

Bitcoin Price Prediction System

- Machine Learning-based Bitcoin forecasting using historical financial datasets and time-series analysis.

Twitter Sentiment Analysis Application

- Real-time NLP-based social media sentiment classification system.

Heart Disease Risk Predictor

- Machine Learning-based healthcare analytics system for heart disease prediction.

Car Evaluation Prediction Application

- Machine Learning-based vehicle classification and performance prediction system.

Webcam Spyware Security Monitoring Tool

- Python-based cybersecurity monitoring system for unauthorized webcam access detection.

DECLARATION

The information provided above is true and correct to the best of knowledge and belief.

Komali Kadiyala

EDUCATION

B.Tech., CSE(AI)	CGPA: 8.22
Narasaraopeta Engineering College	2022 – 2026
INTERMEDIATE (MPC)	911/1000
Jupiter Junior College	2020 – 2022
X Standard	597/600
Oxford High School	2020

PUBLICATION

A Streamlined Deep Learning Framework for Vineyard Yield Estimation

Presented at **IEEE IATMSI 2026**, Gwalior.

- Vineyard yield estimation using YOLOv8, MINN, and Faster R-CNN models for AI-driven agricultural analytics.

KEY ACHIEVEMENTS

CCTV Surveillance Security & Forensics Hackathon Finalist

- Shortlisted among Top 12 Finalists nationwide out of 750+ applications for CCTV Surveillance Security & Forensics Hackathon 2.0 organized by CyberPeace Foundation and Ministry of Home Affairs (MHA)

First Prize - Data Analytics Hackathon

- Secured First Prize in a 24-Hour Data Analytics Hackathon for developing Student Dropout Prediction model

First Prize - Android Hackathon

- Won First Prize in Android Hackathon conducted by KPCode4u for presenting Bride Belle application

First Prize - Android Hackathon

- Selected for Cyber Security Internship at Supraja Technologies based on merit performance in Cyber Security Hackathon
